ca. 2,500 people in Ukraine trained in first aid

The Maltese Medical Service (MSM) in 2014 secured the evacuation of the injured from the Kyiv Euromaidan, then implemented, in cooperation with the Polish Ministry of Foreign Affairs, a several-year training program in pre-medical assistance (1st aid). During the COVID-19 pandemic, the MSM trained relevant civil services (police officers, firefighters, teachers) and donated a significant amount of hygiene and personal protective equipment.

Thanks to this program, about **2,500 trained people** and medical equipment have been serving Ukrainians since the first days of the war.

The MSM - thanks to these contacts has precise information about needs and can implement aid in the most precise and effective way.

A day-room is a place for: care for children, respite, meetings of people who fled the war, counselling.

The scale depends on organized resources. Irrespective – the Order of Malta will react to the war, the post-war situation, and will continue its existing Maltese activities.

The Sovereign Knights Military Hospitaller Order of Saint John of Jerusalem, of Rhodes and of Malta, was founded in Jerusalem in the second half of the 11th century (about 1065). The Order has been present on Polish territory since the XII century. The Association of the Polish Knights of Malta (ZPKM) was founded in 1920, but its activity in communist Poland was not possible. In independent Poland, the Association resumed its activities in 1992.

The Order is active in charity and hospitaller work in about 120 countries. The Knights of Malta provide assistance to victims of natural and military disasters. Their devotion was particularly visible during both World Wars and other armed conflicts. The 20th century saw a dynamic expansion of the Order's hospitaller and charitable, along with religious and diplomatic activities.

The Order of Malta is the oldest humanitarian organization in the world.
